CPADVERTISING GROUP

Cookie Policy

Storage and similar technologies on cpadvert.digital

This Policy describes the limited browser storage and external resources used on the CPAdvertising Group website.

Effective date: 20 November 2026

1. Current approach

The website uses only storage needed to remember choices you make. CPAdvertising Group does not currently set advertising cookies, cross-site tracking cookies or analytics cookies, and does not load advertising pixels.

2. What the website stores

- Language preference: stored locally in your browser so the site can open in your chosen language.
- Motion preference: stored locally only when you choose how website animation should behave.

These preferences are local-storage entries rather than advertising identifiers. They remain until you change them, clear site data or your browser removes them.

3. Strictly necessary technical processing

The hosting and security infrastructure processes ordinary web requests and may use short-lived technical mechanisms needed to deliver pages, balance traffic, prevent abuse and maintain security. Such processing is not used by CPAdvertising Group to build advertising profiles.

4. Google-hosted fonts

The website requests fonts from fonts.googleapis.com and fonts.gstatic.com. This sends your IP address, browser user agent and request details to Google. CPAdvertising Group does not set a cookie through this request. Google's own handling of the request is governed by Google's privacy terms.

5. Consent

Because CPAdvertising Group currently uses only necessary or user-requested preference storage, the site does not display a consent banner for advertising or analytics cookies. If non-essential cookies or similar tracking are introduced, they will not be activated where consent is required until consent has been requested, and this Policy will be updated.

6. How to remove or block storage

You can clear data for cpadvert.digital in your browser settings or configure the browser to block storage. Blocking preference storage may cause language or motion choices to reset between visits.

7. Changes

We may update this Policy when website technology changes. The effective date above identifies the current version, which is published at https://cpadvert.digital/.

8. Contact

Questions about storage, privacy or this Policy may be sent to support@cpadvert.digital.
